PROFESSIONAL SUMMARY

Computer Science graduate and frontend developer with hands-on experience building and deploying responsive websites and web applications using HTML, CSS, JavaScript and WordPress. Also brings experience in IT support and government-sector project administration, including project budget tracking, documentation and coordination. Familiar with Agile and Scrum principles, with a focus on understanding user needs, solving problems and contributing to effective project delivery.

TECHNICAL SKILLS

Languages & Web	HTML5, CSS3, JavaScript
Tools & Platforms	GitHub, Firebase, WordPress, Vercel, Microsoft Office (Word, Excel, PowerPoint)
Photo & Video Editing	Adobe Photoshop, CapCut
Other	AI knowledge, responsive design

SOFT SKILLS

Communication • Problem-solving • Adaptability • Teamwork and collaboration • Reliability

WORK EXPERIENCE

Volunteer Frontend Developer — Witstart Agency | April 2024 – December 2024

- Volunteered in building and optimizing responsive websites and web applications for multiple clients using JavaScript and WordPress.
- Designed clean user interfaces and improved mobile responsiveness to enhance user experience.
- Collaborated with team members to support timely delivery of client projects.

IT Assistant — Ministry of Education | July 2024 – October 2024

- Troubleshot hardware, software, and network issues for staff to support smooth daily operations.
- Assisted with system maintenance, including installation, configuration, and updates of essential applications and devices.
- Supported technical documentation and day-to-day IT team activities.

Support Intern — Planning, Research and Statistics Department, Kwara State Ministry of Tertiary Education | December 2025 – October 2026

- Supported departmental project planning and budget preparation for projects undertaken by departments within the tertiary education sector and external institutions across the state.
- Used Microsoft Excel to enter, organize, maintain, and track project budget records, including expenditure information and funds received through state government budget allocations.
- Used Microsoft Word and PowerPoint to prepare and organize project and budget documentation and presentation materials.
- Assisted in reviewing and coordinating project budget information and participated in budget defence sessions, presenting and explaining budget proposals prepared by the department.

WORK EXPERIENCE (CONTINUED)

Volunteer Technical Team Member — DL4ALL CDS Tech Event | September 2026

- Positioned for Global Relevance — Empowering Ilorin Corp Members Through Technology | 4 September 2026.
- Supported the technical production of the “Positioned for Global Relevance” event at Ilorin Innovation Hub, Ilorin, Kwara State.
- Managed live-streaming activities and the content displayed on event screens for the audience.
- Operated and monitored audio equipment, microphones, and speaker sound to support clear communication during sessions.
- Provided on-the-spot technical assistance to help ensure smooth coordination of the event’s visual and audio systems.

Freelance Frontend Developer | Ongoing

- Designs and develops responsive websites for clients and personal projects using HTML, CSS, JavaScript, and WordPress.
- Builds user-friendly interfaces, tests layouts across screen sizes, and improves website usability and performance.
- Deploys websites and project demos using platforms such as Vercel, with Firebase used in selected projects.

PROJECTS

Portfolio Website (JavaScript, Firebase, Vercel): Designed and deployed a personal portfolio showcasing projects and technical skills, with responsive UI and dynamic project sections.

Client Projects: Baker’s Snacks (food brand website); Serenity Suites (hotel booking website); Kay’s Kitchen (restaurant website); EthernBooks (event ticket-booking prototype with Firebase authentication and storage); Tradepto (demo cryptocurrency dashboard with real-time price updates and portfolio performance).

Interpretable Breast Cancer Diagnosis Using CNN (Python, TensorFlow): Developed an interpretable deep-learning model to classify medical images and applied visualization techniques to improve model transparency.

CERTIFICATIONS

Certificate of Service — Digital Literacy for All (DL4ALL) Community Development Service (CDS), National Youth Service Corps (NYSC) | 2026
Recognised for active participation as a Member of the Ilorin-South Local Government Area CDS in support of inclusive digital adoption and optimization.

Web Development Certificate — Femtech Information Technology Institute | 2023
Gained practical skills in HTML, CSS, JavaScript, and responsive design.

Project Management Masterclass · Udemy | 2026
Gained practical understanding of identifying end-user needs, defining project goals and deliverables, and planning and coordinating tasks to support successful project delivery.

EDUCATION

B.Sc. Computer Science · Federal University Oye-Ekiti
Year of Graduation: 2025 | Second Class Upper

ACHIEVEMENTS & TECH COMMUNITY

- Contributed to open-source web projects on GitHub, demonstrating practical application of technical skills.
- Developed and deployed multiple client websites, demonstrating practical frontend development and problem-solving abilities.
- Volunteered as a Technical Team Member at the DL4ALL Tech Event, supporting live streaming, audio operations and audience screen management.
- Continuously develop technical and project management skills through personal projects, professional training and online learning.
